

HP Latex 260 Printer

Expand your offerings with fast and easy turnarounds

Unrivaled application versatility¹

- Print on a broad range of media from vinyl, textiles,² paper, film, wallpaper to low-cost uncoated options.
- Seize your share of the growing temporary textiles market—print on a wider variety of textiles.²
- Meet client needs for sharp, vivid indoor and outdoor signs—from retail ad campaigns to interior decoration.
- See outdoor durability better than eco-solvent inks;³ offer vehicle graphics with the 3M™ MCS™ Warranty.⁴

Easy, convenient printing

- Enjoy an extremely short time to delivery—prints are dry and ready to finish or use immediately.
- Produce double-sided prints⁵ with automated registration across sides that move immediately to finishing.
- Take advantage of increased uptime that comes from automatic, reliable, low-maintenance printing.
- Use proactive alerts and accurate cost reporting to reduce interruptions and provide price quotes.

Attract business from environment-minded clients

- Attract environmentally conscious customers using HP Latex Inks and recyclable HP printing materials.⁶
- Improve the work environment—no special ventilation,⁷ no hazard warning labels—unlike most eco-solvent inks.
- Return and recycle supplies for free⁸ and dramatically improve ink efficiency.⁹
- HP Latex Inks—UL ECOLOGO, GREENGUARD Children & Schools CertifiedSM,¹⁰ Eco Mark-Certified ink cartridges.¹¹

¹ The HP Latex 260 Printer produces an extremely broad range of both outdoor and indoor applications from a single device, which surpasses the number of different applications that traditional eco-solvent printers or water-based printers can produce.

² For best results, print on media that does not let the ink trespass onto the printer. Performance may vary depending on media. Please consult your media supplier for compatibility details.

³ Durability comparison based on testing of representative eco-solvent inks including eco-sol Max inks on Avery SA vinyl for display permanence and scratch, rub/abrasion, and chemical resistance. HP image permanence and scratch, smudge, and water resistance estimates by HP Image Permanence Lab on a range of media including HP printing materials.

⁴ The 3M™ MCS™ Warranty is available to certified Graphics Manufacturers. For more information on registration and qualification requirements, refer to 3Mgraphics.com, or contact your 3M representative.

⁵ For best results use media options intended for double-sided printing.

⁶ HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See hp.com/recycle for details.

⁷ Special ventilation is not required to meet U.S. OSHA requirements on occupational exposure to VOCs from HP Latex Inks. Special ventilation equipment installation is at the discretion of the customer—no specific HP recommendation is intended. Customers should consult state and local requirements and regulations.

⁸ Visit hp.com/recycle to see how to participate and for HP Planet Partners program availability; program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at hp.com/ecodata to determine appropriate disposal.

⁹ Per internal HP testing based on the amount of ink used during the recommended ink maintenance routines comparing the HP Latex Ink printing system to certain eco-solvent ink systems.

¹⁰ UL ECOLOGO Certification to UL 2801 demonstrates that an ink meets a range of stringent criteria related to human health and environmental considerations (see ul.com/EL). HP Latex Inks are GREENGUARD Children and Schools CertifiedSM (see greenguard.org).

¹¹ HP 792 Latex Ink Cartridges, certification number 11 142 004, certified by the Eco Mark Office of Japan Environment Association.

HP Latex Printing Technologies

HP Latex Inks are water-based inks that combine the best characteristics of solvent inks and water-based inks. You can obtain the outdoor durability and versatility, across all common media types used in sign and display applications, together with high quality, odorless prints,¹² low maintenance, and the environmental advantages of water-based inks.

Prints made with HP Latex Inks are completely cured inside the printer to form a durable image that's ready for lamination, finishing, shipment, or display.

Point of purchase posters

Reduce costs without compromising quality

- Great results on all types of paper, including low-cost uncoated papers and traditional offset papers

Light boxes

Deliver high-value backlit applications

- Produce high-resolution prints up to 1200 dpi
- Vibrant, saturated colors
- Choose from a range of backlit printing materials: paper, film, polypropylene, and textiles¹³

Outdoor and event banners

Produce images worthy of building the best brands

- Achieve high-quality results on self-adhesive vinyls and banners
- Offer outdoor display permanence up to three years unlaminated, five years laminated¹⁴

Vehicle wraps and graphics

Achieve fast turnarounds, even on urgent jobs

- Laminate right after printing—no need to wait for prints to dry
- Flexible ink layer conforms to complex surfaces

¹² Some substrates may have inherent odor.

¹³ Performance may vary depending on media—for more information, see hp.com/go/mediasolutionslocator or consult your media supplier for compatibility details. For best results, use textiles that do not stretch. Performance varies by printer. For mid-volume HP Latex printers, the optional ink collector is required for porous textiles (included with the HP Latex 850 Printer). For low-volume HP Latex printers, print on media that does not let the ink trespass onto the printer.

¹⁴ HP image permanence estimates by HP Image Permanence Lab. Outdoor display permanence tested according to SAE J2527 on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. Laminated display permanence using HP Clear Gloss Cast Overlaminate, GBC clear gloss 1.7 mil hot laminate, or Neschen Solvoprint Performance Clear 80 laminate. Results may vary based on specific media performance.

HP Latex 260 Printer

Vast improvement in double-sided printing

- The double-sided capability¹⁵ allows you to print double-sided banners with minimal operator intervention; the HP Optical Media Advance Sensor (OMAS) controls registration automatically
- You can also save time—no need to rewind the roll between sides

More textiles and higher quality

- 155-cm (61-in) rolls fully supported; now you have access to more of the fabric rolls available in the market
- Maximize the variety of media you can handle, including soft materials previously too light to load; print on porous materials with the Platen Cover accessory (B2W90A)
- Even higher image quality with the new front tension system and edge holders

Wallcoverings and canvas

Discover a new market opportunity

- Odorless prints¹⁶ meet high environmental standards—ideal for hotels, restaurants, schools
- Trial the easy-to-use HP WallArt solution, visit hp.com/go/wallart¹⁷

Temporary textiles¹⁸

Complement your business with textile signage applications

- Print on a wide variety of textiles, including uncoated and natural textiles
- An easy-to-use solution compared to dye-sublimation techniques

Eco Highlights

- Water-based HP Latex Inks—no special ventilation required, no hazard warning labels, no HAPs¹
- HP Latex Inks are UL ECOLOGO Certified; Eco Mark-Certified cartridges²
- GREENGUARD Children & Schools CertifiedSM HP Latex Inks; produce odorless prints³
- Reduce your impact—print using a range of recyclable HP media, recycle all printing supplies⁴

¹ Special ventilation is not required to meet U.S. OSHA requirements on occupational exposure to VOCs from HP Latex Inks. Special ventilation equipment installation is at the discretion of the customer—no specific HP recommendation is intended. Customers should consult state and local requirements and regulations. Contains no Hazardous Air Pollutants according to EPA Method 311.

² UL ECOLOGO Certification to UL 2801 demonstrates that an ink meets a range of stringent criteria related to human health and environmental considerations (see ul.com/EL). HP 792 Latex Ink Cartridges, certification number 11 142 004, certified by the Eco Mark Office of Japan Environment Association.

³ See greenguard.org. Some substrates may have inherent odor.

⁴ Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area.

Please recycle large-format printing hardware and printing supplies.

hp.com/ecosolutions

¹⁵ For best results use media options intended for double-sided printing.

¹⁶ Some substrates may have inherent odor.

¹⁷ Requires an HP WallArt account, Internet connection, and connected Internet-capable device. One year free trial license. Cancel at any time. After the free trial, a full HP WallArt license may be purchased. For more information, see hp.com/go/wallart.

¹⁸ Performance may vary depending on media—for more information, see hp.com/go/mediasolutionslocator or consult your media supplier for compatibility details. For best results, use textiles that do not stretch. Performance varies by printer. For mid-volume HP Latex printers, the optional ink collector is required for porous textiles (included with the HP Latex 850 Printer). For low-volume HP Latex printers, print on media that does not let the ink trespass onto the printer.

Technical specifications

Print speed	Up to 22.8 m ² /hr (246 ft ² /hr)	
Media	Handling	Roll feed, take-up reel automatic cutter (for vinyl paper-based media, backlit polyester film, and thin banners)
	Roll size	58 to 155-cm (23 to 61-in) roll up to 40 kg (88 lb)
	Roll diameter	Up to 18-cm (7.1-in) outside diameter
	Thickness	Up to 0.5 mm (19.7 mil)
	Printing	Print modes ¹⁹
Printing	Print resolution	1200 x 1200 dpi
	Margins	Top x bottom x left x right: 5 x 5 x 5 mm (0.2 x 0.2 x 0.2 x 0.2 in)
	Print heads	6 (2x yellow/black/cyan/light cyan, 2x light magenta/magenta)
	Nozzles	2112 per printhead/2 color per printhead, 1056 nozzles per color
	Connectivity	Interfaces
Dimensions (w x d x h)	Printer	2465 x 690 x 1370 mm (97.5 x 27.5 x 54 in.)
	Shipping	2690 x 815 x 1200 mm (105.9 x 32.1 x 47.2 in)
Weight	Printer	202 kg (445 lb) Shipping 291 kg (642 lb)
What's in the box	HP Latex260 Printer, printhead, printhead cleaning kit, ink maintenance kit, cleaning container, printer stand, take-up reel, loading accessory, edge holder, waste management diverter, user maintenance kit, maintenance guide, setup poster, documentation, software, power cords	
Environmental ranges	Operating temperature	15 to 30° (59 to 86° F)
	Storage temperature	±25 to 55° (±13 to 131° F)
Acoustic	Operating humidity	30 to 80% RH (non-condensing)
	Sound pressure	57 dB (A) (active) 49.5 dB (A) (standby)
Power consumption	Sound power	7.5 B (A) (active) 5.5 B (A) (standby)
	Power requirements	2.7 kW (printing) 8 kW (maximum) 50 watts (power save) Worldwide model: Input voltage (auto-ranging): 220 to 240 VAC (-10%+6%), 50/60 Hz (+/-3 Hz), 15 A max. per power cord. Japan model: Input voltage 200 VAC (-10%+10%), 50/60 Hz (+/-3 Hz), 15 A max. per power cord
Certification	Safety	USA and Canada (CSA certified), EU (LVD and EN 60950-1 compliant), Russia (GOST), China (CCC)
	Electromagnetic	Compliant with Class A requirements, including USA (FCC rules), Canada (ICES/EU (EMC Directive), Australia (ACMA), New Zealand (RSM), China (CCC), Japan (VCCI), Korea (KCC)
	Environmental	ENERGY STAR, WEEE, EU RoHS, China RoHS, REACH, FEMP, UL
Warranty	One-year limited hardware warranty 8-hour, 5 days a week phone support
